

**Technical Information 技术信息**
**BRISENSE ROLLER - DIMENSIONS**
**百森双滑轮 - 尺寸规格**

- Designed for easy installation And trouble-free service
- High quality radial ball bearing-equipped rollers support up to a 500 lb. door with two roller assemblies per door.
- The wheels are Nylon6
- Standard groove radius is 3.175mm
- Recess mounted into a variety of different door styles.
- We do not recommend adjusting the patio door rollers with power screwdrivers as it is possible to apply too much torque and and damage the adjustment mechanism.
- 设计易于安装和转动顺畅
- 高质量的径向滚轮，每扇门安排两个双滑轮，可承重500磅。
- 轮子材质为尼龙6
- 标准凹槽半径3.175
- 可适合于不同风格的门
- 我们不推荐电动螺丝起子调整，因为可能因扭矩太大而损伤的调节结构

## Technical Information 技术信息

Roller assemblies are designed to meet AAMA906.3-96 standards for corrosion resistance, load and life cycle specs

辊组件的设计满足AAMA906.3-96标准的耐腐蚀性、承载能胃和使用寿命等要求。

### Material Specifications

Heavy duty case and support brackets stainless steel.

Ball bearing wheels in Nylon 6.

### 原材料说明

支架等主体零件为不锈钢

轮子材质为尼龙6
